### EQUITY AND INCLUSIVE EDUCATION

The Board is taking important steps forward to reduce discrimination and embrace diversity in our schools to improve overall student achievement and reduce achievement gaps.

The Ministry of Education launched its Equity and Inclusive Education Strategy in April 2009 to help educators across the province better address barriers related to sexism, racism, homophobia, and other forms of discrimination which may prevent some students from reaching their full potential.

During the 2009-2010 school year, the Board will be supporting stronger equity and inclusive education in our schools and developing, implementing and mentoring equity and inclusive education policies, with a focus on addressing gaps in student achievement.
